Nassau is one of 12 New York State Counties that are participating in the PFC Joseph Dwyer program, which provides Veteran Peer Support. Our existing peer networking groups consist of small groups of veterans, who meet weekly to share knowledge, provide mutual support, and share resources. Groups maintain confidentiality. This particular group is open to spouses or partners of veterans of all generations, regardless of discharge status. The group will be facilitated by a fellow military spouse who has been trained in providing peer support. All groups are FREE of charge.
